

Commencing in the 2013-2014 school year, there will be an annual assessment of \$50 per family to pay for charges associated with maintaining our athletic facilities. This \$50 fee is being charged now in connection with the registration for MQP sport activities effective on the first of January each year. This annual fee is necessary due to the increased costs of maintaining our facilities (including resurfacing the gymnasium floor and maintaining/improving St. Elizabeth's fields). This extra charge is in addition to the fee you currently pay for your child to participate in a particular MQP sport, and will be collected in connection with the registration of your child in his/her first sport played during the calendar year. As with other MQP athletic charges, anyone needing financial assistance can contact Father John, the MQP Parish Office, the Athletic Association President, your child's coach or the head of the particular sport in which your child participates.
